The coming three weeks mark a period when not only hedging your bets but replacing your wagers may be just the right thing to do. When resources come up short, don't hesitate to reallocate them in order to provide yourself a firm foundation and a springboard to the future. Redesign with an eye toward giving yourself some extra padding, rather than relying on last-minute income to fill in the gap. Less is more when you streamline your operations, and that may include reshuffling the way you present yourself on a day-to-day basis, in order to become a better part of the flow of life around you.

Kinks, twists, and delays in financial matters are on their way out and a return to smoother sailing is in the works. Although delays may have been annoying, the resolutions they have brought will benefit you immediately and in the long run. Picking up loose ends and tightening your operation has lasting benefits, not only on your resources, but also on your opportunities to disseminate your ideas and expand your contacts and horizons. Any headway you may have lost is momentary and will be made up for by a smoother operation, a steadier course, and fewer distractions over the next several weeks. Tie up loose ends and be ready to move on to expanded horizons and a surer sense of your underpinnings.

Core values may have been at issue recently, with the need to take a second look at what is

really meaningful to you and what is passing fancy. Such changes are now likely to solidify and give you a better sense of personal objectives and what your inner bottom line goals should be. Dispense with that which does not feed the soul but only gives temporary amusement. Quality, not quantity, should be the watchword -- follow your heart, not just your appetite, and you'll find that you will be well-filled. And don't forget that when you give, you get, so an open and generous hand now means instant good karma.

During this period, what you want to hold on to and what you want to let go can be a recurrent issue. Not so much in the outer world, but rather the inner. The set of circumstances that really makes you feel at home and well supported emotionally and spiritually ask to be defined or, rather, redefined. Are you where you would like to be? Are your values abiding or shifting? What is your personal bottom line? As you address these questions, you may find yourself redefined and more secure from within and therefore better able to go after goals on the outside, especially in you interaction with others.

The next three weeks could easily throw some kinks into your schedule and make your routine suddenly unroutine. You have the opportunity now to iron out the wrinkles that may have been bothering you but which were somehow still left unattended. You may be wise to put great leaps forward temporarily on the backburner until you are sure there is nothing to trip you up along your way when you make your moves. This may result in coming to some reconclusions about how and with whom you deploy your creative juices. Listen to that inner voice to make sure you heard it right, then get back into gear.

Hectic reduplication, delays, and scheduling confusions will be straightening themselves out after a few weeks of necessary resorting. All that remains is to put the finishing touches on new approaches and link them all up with others who may be involved. Missed or mixed up messages are resented or clarified so everybody is back on the same page and agrees upon what the next step is going to be. A general sense of well-being supplants a certain unease born of uncertainty and you get back to your healthy glow born of knowing where you've been and focus on where you're going.

Just when you think you can enjoy the limelight, you have to turn around and put some more spin on your tale to satisfy the onlookers. That scenario can characterize the next three weeks when your image may need some polishing and you have to resolve differences of opinion on your status. But, a few stumbling blocks well attended to now will open up a path of clear sailing down the road. Part of this may be that you haven't really picked up the smaller stitches because you've not quite got the bigger picture in focus. Refocus, pull all the threads together, and then you're on your way.

Mercury Conjunct Midheaven (Retrograde)

As Mercury backs off your Midheaven, you will do well to take a second look at what people are saying about you and how well you are projecting the image you mean to. Are you flying the right flags to get what you want? Do people really understand your message and your achievements, or are you taking certain elements for granted? In matters of importance, don't make assumptions but enlist others for a second opinion if possible. If there is any time to tweak your resumé, the next few weeks are definitely it, and the only one who will do it right is you.

Mercury Conjunct Uranus (Retrograde)

Mercury pirouetting on your Uranus could be just what you need to provide that sudden flash of inspiration you've been waiting for. It's less likely to be about the totally new, but more about new light on older inspiration, ways to make approaches work that weren't quite all there before. If you haven't quite arrived in some area and wonder why, now's the time for the internal rewrite that taps into the mother of all inventions, your inner muse. Don't hesitate to smash idols with feet of clay, break down walls, and clear the decks. You can't rebuild to suit your taste until you've got the space to do it and some elbow room.

After a few weeks of uncertainty about the big picture, your panorama on life returns somewhat amended. False starts have led to a focus on correcting details that have distracted from the overall plan, but these are being put behind you so you can return to your former path with a steadier hand on the helm. What you are putting together now will shortly

have a direct effect on what people will be saying about you and your career plans, so don't toss off your ideas lightly. You will have the opportunity to impact your surroundings more than you think if you choose to, but you must make the choice.

Mercury Conjunct Uranus

Mercury stepping out again on your Uranus can bring sudden flashes of insight, unexpected turns of events, and unheralded messages from surprising quarters. When inspiration strikes, be ready to write it down -- get it on paper, before you forget it or someone else tries to deny it. Don't tie yourself down right now, or you might lose the ability to go with the flow when a breaking wave strikes. If it ain't fixed, break it and go for something entirely new -- cut the Gordian knot and don't waste anymore time fussing with tangled or intractable situations. Go for the shortcut, the straight path.

Mercury getting back into gear on your Midheaven means that word about you starts to spread after a period where you might have thought yourself neglected. The flag on your topmast is coming into view, so make sure your flying colors are the colors you really intend to fly by. Self-promotion leads to others promoting you in turn, so it pays to advertise. When it comes to brand recognition, make sure it's your brand they ask for, your style they distinguish and think distinguished. When your reputation is at stake, stake it out and mark out your territory.

Refurbishing goals can be at a premium during this period, but resolving and accomplishing them may be harder than it first appears. The key is to hammer out one central approach from many, and don't be afraid to compromise. What benefits all benefits each, though it may not seem so at the beginning. The trick is to resolve details without getting bogged down in them. Feel free to sweat the small stuff later if you can agree on the general direction. You have to know where you are headed before you can steer -- and one of the best ways to find that out is to look back where you've been.

Finding headway where needed credit and outside support are concerned may lately have turned into a comedy of errors -- not so amusing, but times are changing and the last laugh is still ahead. Where you have met with diminishing returns, back off and run with a single new plan that will be more worth the extra effort. Where you put the extra is everything -- don't spread it around, focus it. You're more likely to get what you really push for than what you simply toy with. Point the backing you seek toward new directions you'd like to power and others will more easily sign on for the ride.

After three weeks of readjustment, you can start getting plans back into shape for going ahead, which includes some new feathers put on your personal image. You may find you have discovered some improved ways of fitting your own leadership into the mix, which will firm up during the next few weeks and everyday rhythms get renormalized. Although it might not have seemed so a couple of weeks ago, you're increasingly glad to have had the opportunity to edit your life a bit so you can better exploit your position both socially and financially during the next month or so. Some changes will be momentary, but some will last.
